(Applies to Civil Service and Foreign Service Employees)

- a. Employees physically unable to take the annual physical fitness test due to a medical condition or illness must request from the Diplomatic Security (DS) Fitness Coordinator a waiver from participation in the fitness exam. The DS Fitness Coordinator will instruct the employee to submit an application for a physical fitness waiver, including a signed medically confidential statement from the employee. The employee's physician must evaluate the medical condition and state why the medical condition prohibits the employee from undergoing fitness testing. - b. The employee, at the end of the recommended waiver, must report for physical fitness testing or apply for another waiver. Waivers may be granted for no longer than one year; extensions may be requested. In

cases where permanent disability makes it impossible for an employee to undergo physical fitness testing, the employee must request a permanent exemption from physical fitness testing in the form of reasonable accommodation from the Bureau of Human Resources Office of Employee Relations Work and Family Programs (HR/ER/WFP).

These hours are in addition to the employee's lunch period. Time allowed to pursue an exercise program is not cumulative from week to week.
- b. Upon notification by the Office of Training and Performance Support in the Diplomatic Security Service of the Bureau of Diplomatic Security (DS/DSS/T/TPS) that an employee has not complied with requests to schedule his or her initial or annual fitness test, the supervisor must disallow further exercise time during regular work hours until the test has been completed. Supervisors are responsible for ensuring that employees use the time allowed to pursue an exercise program.
- c. Time spent engaged in an exercise program will not be credited towards an employee's law enforcement availability pay (LEAP) hours.
